

Internet & Telephone Services

There are three mobile phone companies offering services throughout Bulgaria, with almost complete 100% 2G and 3G coverage.

Internet coverage is also available almost everywhere (the exceptions being mainly the least populated isolated mountainous regions), and many towns offer internet access via wi-fi hotspots in shopping malls, bus and railway stations for free, as well as numerous cafes and coffee shops where access is usually provided upon request of a small order such as a cup of coffee or soft drink.

The three companies are:

Vivacom (www.vivacom.bg) Mtel (www.mtel.bg) Globul (www.globul.bg)

All three operators offer both contract (including various tariff options) and 'Pay As You Go' services for mobile connections, as well as telephone landline , internet and television options either individually or as a package.

National and international telephone calls can also be placed at many Bulgarian post offices (www.bgpost.bg).
